

## **Scrap metal quality acceptance conditions.**

Dear supplier,

To protect the environment and work safe the scrap deliveries to Carbones Holding GmbH has to be as per below;

The scrap has to be free from:

- Asbestos
- Radioactivity
- Hazardous and/ or chemical waste
- Batteries of any kind
- Flammable / ignitable materials
- Closed cylinders
- Ammunition and explosives of any kind, live and/or non-live in any shape.
- Military related items
- Carbodies (un-recycled)
- Electronic appliance (un-recycled)
- Oil, grease, petrol, paint or other flammable/ chemical liquids
- Non-Ferro metals

In case material contain above mentioned we have the right to reject cargo.

Furthermore, the total amount of impurities in any delivery may not exceed 2% in weight.

As impurities we consider all non-ferrous like:

- Soil / sand / dust / stone / concrete
- Wood
- Plastic / rubber / foam / insulation material / fabric / tyres
- Slack of any kind
- Any other non ferro

In case impurities exceed 2% we have the right to reject the cargo.

Off grade like :

- Incinerated ferrous scrap
- Steel turnings/ borings
- Steel slack / skimmer

At zero value or right to reject

Further need the cargo to be free of excessive rust/ corrosion / oxides
